**SUMMARY OF THE REASONS FOR DECISION:**

The untitled photographic material, also known as *Item 30 Sleeve containing a negative*, has been classified as:  
Unrestricted.

The publication consists of a black and white photographic negative framed in clear plastic. The image depicts a formal still life representation of a large urn or jug with a handle, surrounded by pieces of fruit. The reproduction of surface texture suggests that the image is a photograph of a painting. The composition of the image has artistic merit. The image forms part of a large quantity of photographic material by the photographer David Hamilton.

The negative does not raise any matters of concern under the Films, Videos, and Publications Classification Act 1993 and is therefore classified as unrestricted.
